Crypto project, Crypto coin and gaming with  
forex trading company now free mining going  
on worldwide project Come and earn million  
Dollars with this system.

***XAR1 Coin Listing on Multi Exchanges Soon.***

## WHAT IS CRYPTOCURRENCY ?

*A Crypto currency is a digital or virtual currency that is secured by cryptography, which makes it nearly impossible to counterfeit or double-spend. Many crypto currencies are decentralized networks based on block chain technology— a distributed ledger enforced by a disparate network of computers.*

*A defining feature of crypto currencies is that they are generally not issued by any central authority, rendering them theoretically immune to government interference or manipulation.*
